CLAIMS:

1. A mailable card including:
 - a first panel of generally rectangular configuration so as to have a pair of side edges and a pair of end edges extending between the side edges, the first panel also having a major front face to receive an image or text and a major rear face;
 - a second panel including a first portion securable to the first panel so as to provide in combination with the first panel a pocket to receive a relatively flat object, and a second portion associated with the first portion and securable to the rear face to close the pocket;
 - securing means manipulated by a user to secure the second portion to the rear face to close the pocket; and
 - an opening means manipulated by a user to permit removal of said object from said pocket.
2. The mailable card of claim 1, wherein the card is formed of a single sheet of card material folded about a line parallel to said end edges to define said first and second panels.
3. The mailable card of claim 1 or claim 2, wherein said first panel includes first and second flap portions foldable about said side edges and adjacent said second panel.
4. The mailable card of claim 3, wherein said first portion of said second panel is securable to said flap portions to close the pocket.
5. The mailable card of any one of claims 1 to 4, wherein said securing means includes an adhesive strip along an edge of said second portion.
6. The mailable card of any one of claims 1 to 5, wherein said opening means includes a detachable panel defined by a line of perforations.
7. A mailable card having:
 - first and second panels securable together in use to define a pocket for retaining an object;
 - securing means to secure said first panel to said second panel; and
 - a detachable portion to provide an opening in said second panel, whereby when said first panel is secured to said second panel, manipulation by a user of said detachable portion permits removal of said object from said pocket.
8. The mailable card of claim 7, wherein said first panel includes first and second flap portions foldable about said side edges and adjacent said second panel.

9. The mailable card of claim 7 or claim 8, wherein the second panel includes a first portion and a second portion.
10. The mailable card of claim 9, wherein said first portion of said second panel is securable to said flap portions to close the pocket.
11. The mailable card of claim 9, wherein said first portion is secured to said first panel prior to said object being inserted into said pocket.
12. The mailable card of claim 9, wherein said second portion is secured by a user to said first panel after the object has been inserted into said pocket.
13. The mailable card of any one of claims 7 to 13, wherein said securing means includes an adhesive strip along an edge of said second portion.
14. The mailable card of any one of claims 7 to 13, wherein said detachable portion is defined by a line of perforations.
15. The mailable card of any one of claims 8 to 14, wherein said second panel includes a flap member.
16. The mailable card of claim 15, wherein said flap member in use is moveable between a closed position substantially parallel to a plane of said panels and an open position substantially normal to a plane of said panels.
17. The mailable card of claim 16, wherein said flap member when in said open position forms a stand for said card.
18. The mailable card of any one of claims 7 to 14, wherein said first and second panels are formed from a single blank of card material.
19. The mailable card of any one of claims 17 to 19, wherein one of said flap portions includes a lip for receipt of said flap member to reseal said pocket.
20. The mailable card of any one of claims 7 to 18, wherein said object is an information storage device.
21. The mailable card of claim 20, wherein said information storage device is a mini compact disc, mini digital video disc or CD-ROM.
